Introduction

Thank you for your interest in Cariboo College. The purpose of this handbook is to help the new student become better acquainted with Cariboo College. The procedures are not complicated, but they may appear that way before you are familiar with them. The student handbook has been designed to be a supplement to the Cariboo College Calendar. For questions you are unable to find answers for in the calendar and handbook, you are encouraged to contact the Counselling Department or Admissions staff for assistance.

Much of the material in this handbook was compiled by a 1987 Work Study student, Ian Stewart. Ian was a Communications Media student at Cariboo College in 1987.

College Programs

Cariboo College offers a wide variety of programs of study that cater to almost every educational need you might have. These programs fall into four main groups - **Career Technology** programs that prepare you for immediate entry into a specific career, the **Academic Studies** program which offers courses that you can apply toward a degree at a provincial university, the **Vocational** program in which you can train for a career in a trade or in industry, and the **Adult Basic Education** and **College Preparation** programs through which you can acquire basic skills that will form the basis for your success in other programs.

Career Technology Programs

The aim of the Career Technology programs is to train you for immediate employment in a particular field. These programs can be either one or two or three years long, and include such careers as Early Childhood Education (1 year), Med Lab Technologist (2 years) and Respiratory Therapist (3 years). Each program consists of a range of courses, all of which are designed to give skills directly relevant to the job. Typical of the Career Technology Programs is the one year Communications Media Program. Designed to prepare students for entry into a range of jobs in radio, TV and newspaper journalism, its courses include Political Science, English, newspaper production, voice training, law, radio and TV broadcasting. Many of the courses in these programs are offered on a semester basis, mainly as part of the College's daytime program. However, entry to many of the Career Technology programs is once a year in the fall. Since entry requirements for these programs vary, it is best to check with the College Counselling staff for information on them.

Academic Studies Program
(University Transfer)

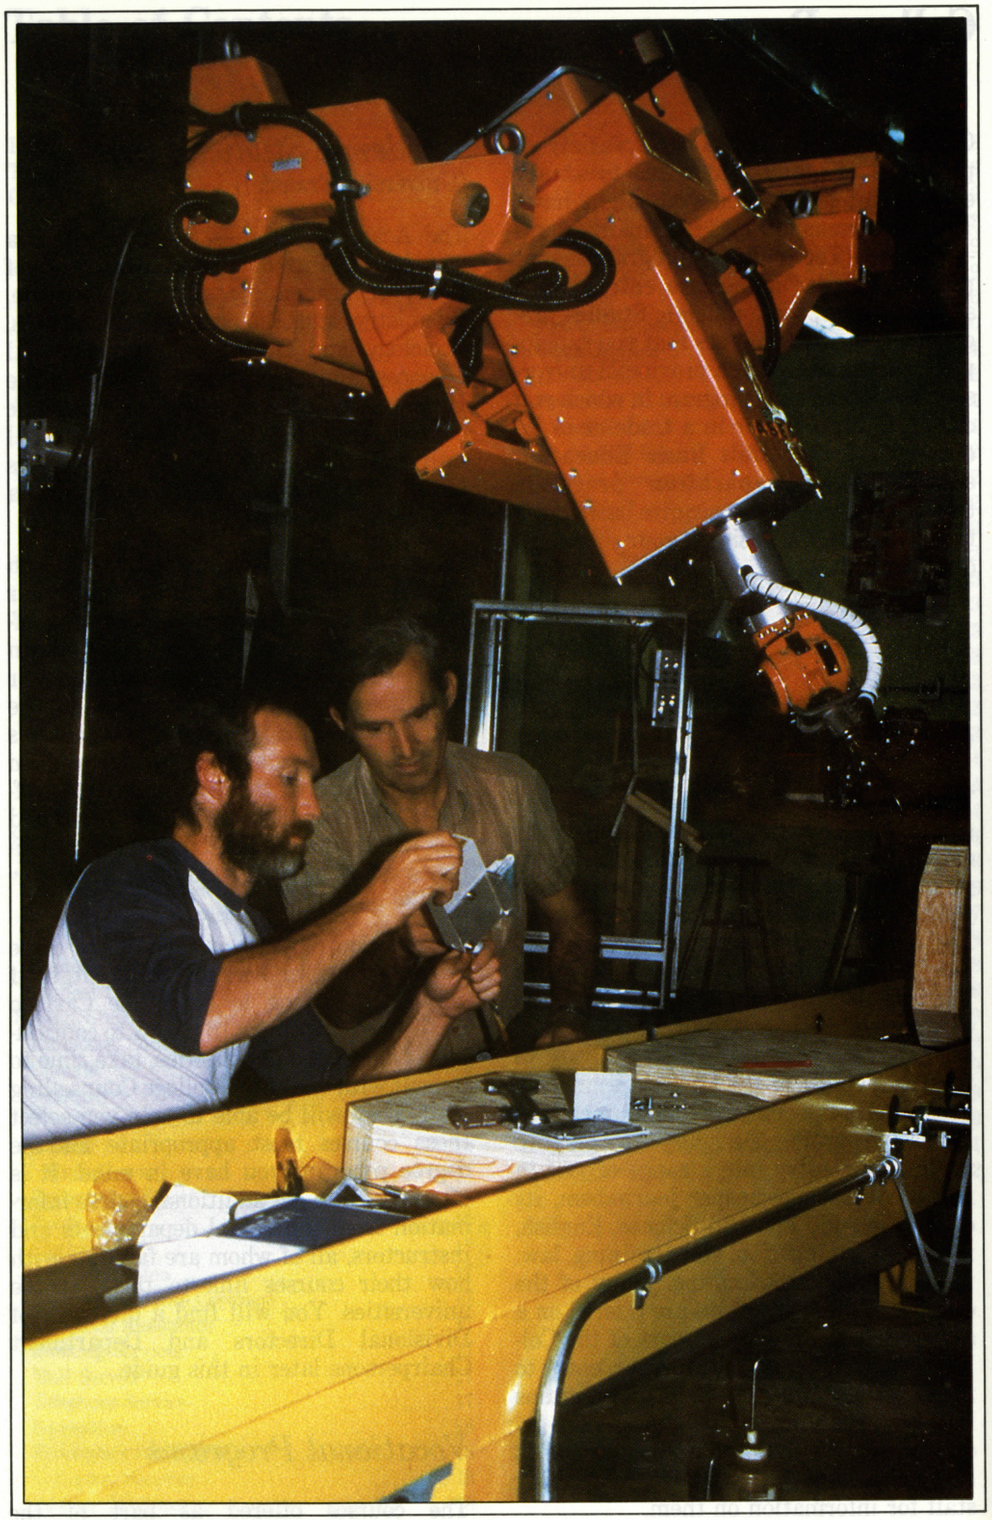
The Academic Studies Program offers a very broad range of courses in a variety of fields of academic study; for example, Chemistry and Biology in the Sciences, Sociology and Geography in the Social Sciences, and English and French in the Humanities. Almost all these academic courses carry credit at the three provincial universities, and although not all students enroll with the intention of continuing at a university, many do.

In most subjects there are courses at both the First Year level and the Second Year level. All these academic courses are offered on a semester basis, and so you can gain entry to the program in September or in January. While the majority of the courses are offered as part of the College's daytime program, a great number of them also form part of the evening program offered between 1900 and 2200 hours, and this makes the academic program accessible to many of those who must work during the day.

Degree requirements at each of the three provincial universities are different, so if you are planning to enter the Cariboo Academic Program with a view to continuing at one of the universities, take time to consult with one of the College Counselling staff. They will be able to help you select those courses most appropriate for the degree program you have in mind. It is often useful to get additional course information from individual departments and instructors, all of whom are familiar with how their courses link to those at the universities. You will find a directory of Divisional Directors and Department Chairpersons later in this guide.

Vocational Programs

The courses offered as part of the



Vocational Program are intended to prepare you for the workforce in the trades or in industry. Typical of the industrial and construction trades in which you can train are Electrical, Carpentry and Joinery, Welding, and Heavy Duty and Auto Mechanics. Opportunities to train for the hospitality industry are offered in the Cook Training and the Meat Cutting programs.

The College offers trades training courses of two kinds. There are the Pre-employment Industrial Trades courses that represent a new approach to trades and industrial training in the province. These courses are competency-based and individualized, in which you move at your own speed through three levels of training — Common Core, Occupational Core and a Specialty level. The skills you need for the trade are divided into separate units of theory or of practice at each level, and you must show that you are competent in each skill before you move on to the next. The Mechanics trades are a good example. After you have completed the basic skills of the Common Core, you move to the Mechanics Occupational Core where the skills are targeted precisely for the Mechanics trades. Successful completion of this Occupational Core prepares you to enter your choice of a number of specialties — Diesel Engine, Heavy Duty, Auto Mechanics among them.

The other courses offered in the Vocational Program are the Apprenticeship courses. Many people acquire their training by entering the trade apprenticed to an employer. For the majority of the year, they gain practical experience in the trade working for that employer. But each year for four years, they attend apprenticeship classes at a designated institution or training facility. Cariboo College currently offers apprenticeship classes in Electrical and in Heavy Duty Mechanics.

Unlike the Career Technology and the Academic Programs, the Vocational Programs do not follow the semester system. In the Pre-employment Industrial Trades courses, you can enroll at the start of any month providing a space is available for you. If you are eligible to enter an apprentice class, you would do so whenever that course is made available. The College Admissions Office has complete details on entry into each of the Pre-employment Industrial Trades courses, and the Apprenticeship Branch of the provincial Ministry of Advanced Education and Job Training can notify you when the next apprenticeship class in your trade will be offered.

Adult Basic Education Programs

The Adult Basic Education department (ABE) offers a wide range of courses to students with varying educational needs. The department is located in the Allan Matthews Centre, 543 St. Paul Street, in downtown Kamloops.

Many of the courses in Adult Basic Education are offered in an individualized and self-paced format in the Centre for Independent Studies (CIS), and are designed to provide you with basic skills that form the foundation for successful completion of courses and programs already described. Through the CIS, you can complete high school requirements. You can prepare yourself for enrollment in the Pre-employment Industrial Trades courses, in a Career program or in academic courses by taking English, mathematics, biology, history, physics, science and social studies at any introductory level that meets your requirements. As with the other individualized programs at the College, you can begin courses at the CIS at the start of every month.

The ABE Department also offers programs to students who have special educational requirements. These programs include Career Opportunities in Preparation for Employment (COPE), Basic Literacy, Alternate Route, and English as a Second Language (ESL). Each of these programs runs for a fixed period of time, and they are offered at different times during the year as they are needed.

The flexibility and the range of courses

offered through Adult Basic Education makes it important that you consult with a College Counsellor or with members of the ABE staff. They will help you select courses and plan a program of study that helps you meet your own particular goals.

Extension Programs

In addition to the courses offered through the programs already described, Cariboo College also offers a broad range of courses through its Extension Program. Many of these courses are designed to respond directly to community needs, and include such popular interests as Photography and Introduction to Computers. Most of the courses are offered in the evening, and are not generally designed for credit toward a specific program of studies.

Information on these courses appears twice a year, in September and in January, in local and regional newspapers. A special supplement gives course descriptions and details of times and locations and registration procedures. For additional information, contact the Extension Services Department at Cariboo.

MILE Program

If you live in the College region but out of reach of the campuses in Kamloops or Williams Lake and the Learning Centre in Merritt, the MILE Program provides an opportunity for you to pursue studies in your own community. The two MILE (Mobile Independent Learning Express) vans travel weekly to many communities in the College region such as 100 Mile House, Barriere, Chase and Lytton.

Acting as mobile learning centres, the MILE vans offer courses in the Academic Studies Program, Business Administration and Adult Basic Education. The courses are designed on a distance model, in which you work through a course independently with support from a tutor or an instructor.

The vans are staffed by fully-qualified instructors who can provide educational counselling, registration, and instructional support for many of the courses offered. For several courses, students take their written examinations in the van under the supervision of the instructor. The vans also contain a full range of audio-visual equipment and a microcomputer.

The vans operate from September to June, and you may register for courses at any time during those months. You can register in the vans themselves, at the main campus in Kamloops, at the Williams Lake campus, or through the Learning Centre in Merritt. For detailed information on the routes and schedules of the MILE vans, you can call the College at 374-0123 (828-5000 after November).

Directors and Chairpersons

Academic Information

Admission Requirements

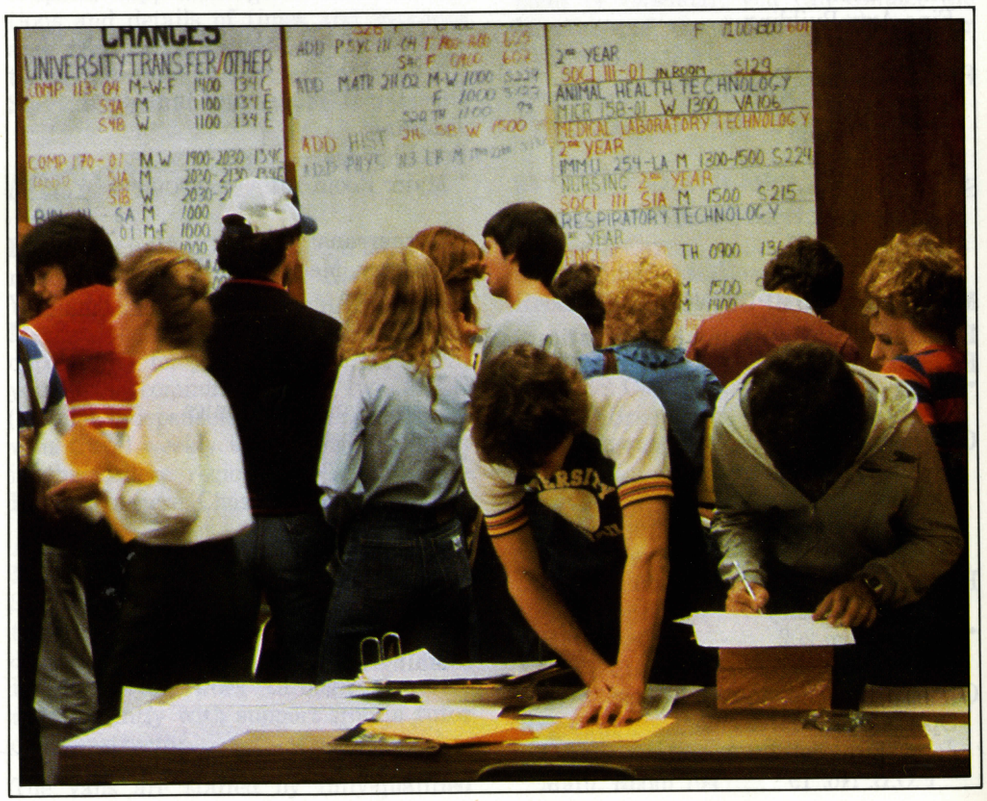
GENERAL ADMISSION REQUIREMENTS

In order to take a course at Cariboo College, prospective students must apply for admission to the College. You are eligible for admission if you are a Canadian citizen or hold landed immigrant status or hold a valid student visa issued by Canada and indicating Cariboo College as the institution at which study is to take place.

In addition to the general requirements, most programs also have educational prerequisites. Check the calendar for a list of prerequisites.

MATURE STUDENT STATUS

Any applicant at least 20 years of age and a minimum of three years out of school who is lacking requirements for a program or course, will be considered for mature student admission status. Although the grade level requirement (grade 10, grade 12, etc.) will be waived for students classified as mature, individual course prerequisites for the program or course being applied for must be met. Applicants applying for Mature Student Admission status are urged to seek assistance from a Counsellor.



APPLICATION FOR ADMISSION PROCEDURES

1. Obtain an application package from the Admissions Department or phone 374-0123 (after November 828-5037)
2. You must complete the application form and attach all necessary documentation, including an official transcript from secondary school and any transcripts from other post-secondary institutions you may have attended.
3. Return the completed forms and any other required documents to the Admissions Department with a one-time only, non-refundable $15.00 application fee. This fee must accompany the application for admission.
4. Official notification of acceptance will be mailed to you prior to registration. This form will confirm you are eligible to register, or if you have outstanding admission requirements.

Returning students must re-apply once a year for the fall semester, but documentation already on file need not be resubmitted. Students should re-apply a minimum of four months prior to the start of class.

New students who apply for admission but are not accepted and wish to be considered for the next intake must re-apply for admission. Waiting lists are not maintained following commencement of programs.

Applications are processed on a first-come, first-serve basis; therefore, it is advisable to apply early. Students are not admitted or wait-listed to a program until all admission and supporting documentation requirements are met. In certain limited enrollment programs, prepayment of the first semester fees is required prior to acceptance. Those students affected will be mailed request for payment notices.

Registration

All students who have been accepted into a program at the College will receive a registration notice in the mail. Students should follow the instructions contained in the registration notice.

You will receive your schedule of courses. For most Career/Technology students, your program of study is pre-determined and you will be given ready-made timetables.

Academic Studies students will have to choose their own courses and make up a timetable. When making your course selections, you should be familiar with alternate selections in case your choices are filled or you are not able to fit your courses into your timetable.

Before registering for a course, read the course description in the calendar, know what the required prerequisites and co-requisites are and check transferability. If you need help in selecting courses you should make an appointment to see a Counsellor or Academic Advisor prior to registration.

Registration is not complete until all fees are paid. Fees can be paid by cash, cheque, money order, Visa or Mastercard.

Prepare for a line-up, come a little early, wear comfortable shoes, be patient and you will get through.

Note: You need to give a copy of your registration form to the Library staff to get a student card.

Advanced Credit

The Admissions Department will evaluate, upon request, official transcripts for work completed elsewhere and may grant advanced credit towards specific programs. Forms on which to request advanced credit are available from the Admissions Department. You might also refer to the College calendar.

Course Challenge

Certain courses may be challenged for credit. The purpose of this challenge is to determine whether knowledge and experience gained outside the College is equivalent to that required for successful completion of a course.

A student must be enrolled in at least one credit course or have applied for admission in the semester in which a course is challenged. Course challenging does not apply where the challenges are a normal part of the process of admission.

The cost of a challenge exam will equal the course fee.

If you desire to challenge a course, here is what to do:

1. Complete an "Application to Challenge" form available in the Admissions Office.
2. Get signed approval from the Chairperson of the department and arrange a time to take the exam.
3. Submit the completed form to the Admissions Office and pay the course fee.

For limitations on course challenges, contact the Records Department.

Refunds

Refunds of tuition fees are available to those students who are obliged to drop-out of courses regardless of the reason. The procedures and terms of refunds are described below.

REFUNDS — GENERAL PROCEDURES

1. A signed official withdrawal form or letter must be turned in to the Records Office.
2. Student Society, College Activity, materials and late registration fees are not refundable (there are some exceptions). See below.
3. Students who withdraw for medical reasons during the semester will be provided with an 80% refund of tuition fees upon receipt of an official medical excuse verified by their doctor.
4. For students who have approved Advance Credit or exemption for a course, a 100% refund of tuition, materials, Student Society and College Activity fees will be given upon request.
5. In cases where the College is unable to deliver the course registered for, a 100% refund of tuition, materials, Student Society and College Activity fees will be given.

REFUNDS — SEMESTERIZED PROGRAMMING

1. Withdrawal in first or second week of instruction — 80% of the difference between the fees paid and the revised tuition fee.
2. Withdrawal in third or fourth week of instruction — 50% of the difference between the fees paid and the revised tuition fee.
3. Withdrawal after fourth week of instruction — no refund.

REFUNDS — MONTHLY PROGRAMMING

For programs assessed on a monthly basis, students will be refunded any full months of tuition paid but not used.

REFUNDS — PREPAYMENT OF FEES

In certain limited enrollment programs, prepayment of the first semester fees is required. For these programs, students who withdraw will receive 50% refund of tuition up to the first day of class.

REFUNDS — EXTENSION SERVICE PROGRAMMING

1. Prior to the commencement of the course, a full refund less a $5.00 administration fee, is provided.
2. After the first night of instruction, no refund is provided.

Examinations

The student is responsible for knowing the dates and times of all his/her scheduled exams. Instructors usually provide this information during the first two weeks of class and also the final examination schedule will be posted each semester by the Registrar's Office, Rm 104.

In most classes, examinations will not be the only method used to determine how well you understand the subject matter. Your performance on papers and reports, lab assignments and class presentations, among other things, will also be used to calculate your final grade. Final examinations for courses that require them, will normally be held during the last weeks of each semester. (December for fall semester, and April for winter semester).

Students who miss examinations for reasons of illness or for compassionate reasons are required to obtain a physician's certificate or other supporting documents in order to obtain credit for the course. Such documents should be given to the instructor or to the Registrar, Dennis Mayberry, as soon as possible. If it is an unexcused absence, you will be given a zero on the exam and this zero will be included in the calculation of your final grade.

Grades

Cariboo College uses the following letter grade system for student evaluation.

Letter Grade	Grade Point Value	Definition	Percentage Range
A +	4.00	Excellent Performance	90-100%
A	4.00	Excellent Performance	85-89%
A −	3.67	Excellent Performance	80-84%
B +	3.33	Good Performance	75-79%
B	3.00	Good Performance	70-74%
B −	2.67	Good Performance	65-69%
C +	2.33	Satisfactory Performance	60-64 %
C	2.00	Satisfactory Performance	55-59%
D	1.00	Marginal Performance	50-54%
F	0.00	Unsatisfactory Performance (Fail)	Below 50%
DNC	0.00	Did Not Complete Course No Official Withdrawal	—

***Note:** These percentage ranges are used mainly for Academic Studies and Career Technical programs. For Trades and Industrial ranges, please see the respective Department Chairperson.

Other Grades (Not Counted in G.P.A.)

ADV Advanced Credit
CC Course Challenge
CIP Course in Progress
COM Course Completed — Credit Granted
DEF Final Grade Deferred
NCG No Credit Granted — Not counted in G.P.A. Withdrawal
W Withdrawal

CALCULATION OF GRADE POINT AVERAGE (G.P.A.)

1. For each course taken, the grade point value of the mark is multiplied by the credit value of that course.
2. The total number of grade points is divided by the total number of credits to obtain the grade point average (G.P.A.).
3. The G.P.A. is calculated only on the courses taken for credit.
4. A course or grade may not be deleted from the permanent record. However, if the student repeats a course, only the highest grade will be used in the calculations for total grade point average.

NOTE: Students who intend to transfer to another educational institution, must realize that another institution may recompute grade point average in accordance with its own policies.

Study Skills

Did you know that studying is a skill that can be learned and then improved with practice? Successful students study effectively and efficiently. Study skills that improve your effectiveness will give you more time to spend on other activities.

To help increase your effectiveness, try:
— setting time limits when you study by dividing your work into smaller sections and setting time limits for each section.
— giving yourself variety - alternate reading your text material with reviewing your notes.
— establishing a regular study area and time. Use your study area only for active study.
— planning ahead and studying regularly, even if you do not have a test in the near future.
— planning breaks when studying for long periods.
— underlining important phrases and taking notes to increase your active involvement in your work.

The Counselling Office has resource material that you can borrow to improve listening, notetaking and exam writing skills.

Student Services Division

The Student Services Division offers students the following services:

Counselling Resources Centre

The Counselling Resources Centre in the Main Building at Cariboo College provides a free, confidential counselling service for students and prospective students. Counsellors will assist students in developing ways of dealing with personal problems and/or career-related problems. In addition to individual counselling, the counsellors also give personal growth workshops, which include:

Time Management
Assertiveness Skills
Stress Management
Study Skills
Test Anxiety
Communications Skills
Self Marketing Skills/Resume Writing

These workshops are often scheduled by instructors to meet the needs of the class. The Counsellors also give Personal Career Planning Workshops to help those who are entering or re-entering the labour force or for those who are considering seeking a career change. Held twice a month during the fall and winter semester, workshops include interest testing, vocational theory and consideration of jobs in the future market. The fee for this workshop is $25.

The Career Resource Centre is the place to find educational, occupational and vocational information and resource material. A library of calendars for most Canadian colleges and universities is provided for student and community use. Students are also welcomed and encouraged to use the Canadian Classification and Dictionary of Occupations files to find information about jobs and careers. The Centre is open from 9:00 a.m. to 7:00 p.m., Monday to Thursday and 9:00 a.m. to 4:00 p.m. on Friday.

Services for Disabled Students

The Counselling Centre is responsible for making the College accessible to the disabled. You should make an appointment with Mel Felker, Chief Counsellor, if you are disabled and need help.

Tutoring, interpretors, readers and note takers are provided free of charge to disabled students who require these services. Special parking permits are also available from Health Services in room 155.

Student Health Services

The Health Service is a free and convenient place to go on campus for any health problem. The registered nurses, Elizabeth Biagioni and Diane Palmer, will tend to any problem that you may have. If the problem involves an X-ray or a diagnosis, they will contact your doctor or send you directly to Emergency at the Hospital.

The service is open from 8:30 a.m. to 4:30 p.m. during the week and is located in room 155 of the vocational wing. Crutches and wheelchairs, as well as handicapped parking permits are available to you if you are injured or handicapped.

Thursday afternoons from 12:30 p.m. to 4:30 p.m., Dr. Schumacher is in the Health Centre to help students. Appointments are made simply by contacting the Nurse. Medical plan applications can be picked-up here if you do not already have the service. Only the doctor requires the medical insurance plan. Any service you need from the Nurse is free of charge.

If you require first-aid outside of the hours stated above, any security guard will help you.

Student Housing

For a student who has just moved to Kamloops with hopes of finding accommodation, chances are good.

Cariboo does not offer its own housing facilities at the moment, but definitely plans for some in the near future.

Cariboo compensates adequately with an alternate system. Twice a year the College broadcasts the need for student housing. The public is very responsive and a wide variety of quality accommodations become available. The list of accommodations is available in the Counselling Centre.

If you desire to live closer to the College, areas like Sahali, Dufferin and Aberdeen are within walking distance of the College and are serviced by buses as well. Accommodations can also be located in areas like North Kamloops, Brocklehurst, Westsyde, Dallas and Valleyview. These areas are within bus range; however, more travel time should be allotted for and a transfer is required at the downtown terminal to get to these outlying neighborhoods. You might require up to one hour of travelling each way if you live in these areas of the city.

In certain situations, the student can arrange small jobs with the landlord for reductions in rent.

Short-term students can often get discounts from local motels; the rate is approximately $90/week depending on the motel.

Student Orientation

During July and August, Cariboo College conducts an Orientation Program for new students planning to attend the College in the fall. These orientations are not the same as the program orientations you may have attended previously, and are intended to help you, the new student, become more familiar with the campus area, and the services and facilities available. They will also give you the opportunity to discuss any questions you may have regarding the College.

The duration of the orientation sessions is approximately three hours and will cover such topics as registration procedures, financial aid, College services, study skills, and how to adjust to the College. An orientation before the start of fall classes can be beneficial to you and would ease the alienation initially experienced when first arriving on campus.

We ask that you register for the orientation by contacting the Counselling Department at 374-0123, local 5013.

Cariboo College

Student Finance

For those of you who do not have the means to support yourself while attending College or to pay tuition, Cariboo has sources of funds to address needy students as well as those who excel academically.

One avenue to follow up is government student assistance. Student aid is definitely not impossible to attain because of its safe collateral, your future. Still, the student should not overlook other forms of income — parents, employers, participating unions or savings. Government student aid may be your answer when these avenues have been exhausted.

Once you have decided to apply for student aid, the paperwork begins. For the complicated process of the application, workshops are usually held in June and students are strongly recommended to attend — those who complete the forms incorrectly have them returned. Dates are in the calendar under the heading of "Schedule of Workshops." In some cases, students have been known to get their bungled applications returned as many as four times, which, of course, delays approval of your loan. In addition to workshops, you can view a slide presentation located in the Financial Aid and Awards Office, to guide you through the process. Debt counselling is also available from Financial Aid Officers at Cariboo for those who need it.

For out-of-town students who can't attend the workshops or view the slide presentation, the Guide Form, which is part of the application, will be helpful; if you follow it carefully, if should suffice.

Emergency loans are available for students with short-term financial problems and who have been in the College a minimum of one month and who are doing satisfactorily in their program. The loans range from $50 to $100 and must be paid back within a month. Grades are withheld while loans are outstanding.

Work Study (campus employment) is also available for needy students who are B.C. residents according to the criteria laid down under the B.C. Students Assistance Program. Hours are negotiated to fit your class schedule. Jobs are available in many areas of the College, such as the science lab, the Gymnasium and computer services. Apply through the Financial Aid and Awards Office.

Students who achieve high honor roll standing and who return to Cariboo College for further study may benefit from private scholarships. These usually range from $300 to $500 and are awarded at the annual Awards Ceremony in the fall. Bursaries are also available to financially needy students. These awards, which range from $100 to $600, are based on need and reasonable achievement. Check the College Calendar for application dates, also for details of other sources of financial aid and awards.

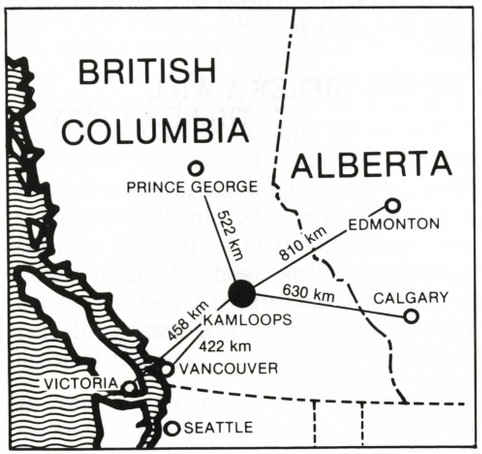
WHERE THERE'S A WILL,
THERE'S A WAY !!!!!

Foreign Student Information

Kamloops: Location and General Information

Kamloops is located in the South Central portion of the Province of British Columbia, where the North and South Thompson Rivers meet. It serves as a major trade and service centre for the Interior of B.C.

Distance from Kamloops to various big cities in B.C. and Alberta is shown below.



The city population is approximately 60,000. The downtown area of Kamloops is located on the south shore of the South Thompson River and it is the location of most business and trade. Industries in the area include agriculture, mining, logging, forest products manufacturing and distribution, and tourism and recreation.

Climate

Average summer temperature: 26°C (78°F)
Average winter temperature: 1°C (34°F)

Currency

Canadian money is available in two forms: paper and coin.

COINS

Value (cent)	Name
1	penny
5	nickel
10	dime
25	quarter

PAPER

Paper money is in units of $1*, $2, $5, $10, $20, $50, $100.

* $1 paper currencies will all be replaced by new $1 coins soon.

Transportation

LOCAL TRANSPORTATION

1. **Kamloops Transit — City Bus**
   Riding the city bus is an inexpensive way of getting to the College. It operates six days a week (Monday to Saturday). Make sure to have the exact fare ready; drivers carry no change. There are two types of convenient tickets which can save you money: all-day passes and sheets of 20 tickets*. For more information, check with the Kamloops Transit.

   * Available at various stores in town.

2. **Taxi (Cab)**
   Taxi is a more expensive transportation and services are provided 24 hours by a few local taxi companies. You have to expect to wait 5-10 minutes for a cab to arrive at your place after your phone call.

3. **Own transportation**
   A person who is 16 years of age or over is eligible to get a driver's license. Although it is a more convenient transportation, it costs you extra money. e.g. gas, insurance, maintenance of your car.

OUT-OF-TOWN

The most common way is by bus or by air. It takes you longer if you go by bus but it is much cheaper.

Department Stores

There are various big stores in Kamloops and they provide food, clothing and other basic necessities. Most of them are open 7 days a week. The wide range of prices can suit different budgets. Check local newspapers for items on sale because there may be a great difference between regular price and the sale price. There is also a refund policy at the stores.

Food

The basic Canadian meal is meat and potatoes plus other vegetables. Eggs, cheese, and fish are common meat substitutes, while spaghetti, noodles, and rice or beans are a few common substitutes for potatoes. Vegetables and fruit are included in most meals.

Clothing

SUMMER

You will need a light coat for summer because temperatures may suddenly drop, especially on rainy days. Most students wear casual slacks or jeans along with a shirt, or in the case of women, a blouse. Some women also wear skirts and dresses.

WINTER

For winter, the most important is a casual heavy coat. Warm hat, gloves/mittens and boots are also needed. You should buy your winter clothes here because they are more suitable for the local climate. Be sure to try on a garment at the store before you buy it.

Accommodation

There is no student housing at Cariboo College but the College can assist overseas students to find private accommodations.

Approximate rates (on average):
Room: $150/month
Room and Board: $350/month

Medical Insurance Coverage

Cariboo College has a special arrangement with an agent in town to provide medical insurance services for foreign students. The rate is approximately $325/yr. For more information, students should contact the Foreign Student Co-ordinator.

Financial Assistance

Overseas students are not allowed to work in Canada. Also, they are not eligible for any financial support through the College. Students should make adequate financial arrangements in their own country.

Banking Services

Banks are located in the downtown area and in most shopping malls. They provide all kinds of services, such as personal savings, international money order purchase, and foreign currency exchange, etc. Automatic withdrawal and deposit machines are also available at most banks.

Mail Service

There are two main post offices in Kamloops: downtown area and Southgate Industrial Park. Most shopping malls have sub post offices within the stores. The postage for regular air mail in Canada is 36¢. For postal rates outside Canada, check with any post office.

Telephone Service

Local telephone calls (in Kamloops) are free of charge. Long distance calls to all other areas, including outside Canada, are charged. You can make such a call by the "Direct Dial" method or the "Operator Assisted" method. There are also public telephone booths located in all shopping malls (25¢ for a call).

Recreation

Summer recreation opportunities include fishing, swimming, horseback riding and tennis. Cross country and downhill skiing and hockey are the most common winter outdoor sports in Kamloops. Training classes for various sports are provided by numerous community organizations and the government's recreational and cultural division.

Emergency Situations

For emergency situations, e.g. fire, ambulance service, call 911.

Volunteer Services

There are various organizations which can provide assistance for foreign students:
e.g. Immigrants' Community Service
Kamloops Multicultural Society
Other cultural associations

College Policies

Academic Dishonesty

Cheating, academic misconduct, fabrication, plagiarism and/or all other forms of academic dishonesty could result in the student receiving a failing grade (F) in that course and/or being suspended from the college.

CHEATING

Cheating is an act of deception by which a student misrepresents that he/she has mastered information on an academic exercise that he/she has not mastered.

Examples:
1. Copying from another student's test paper.
2. Allowing another student to copy from a test paper.
3. Using the course textbook or other material such as a notebook, brought to a class meeting but not authorized for use during a test.
4. Collaborating during a test with any other person by receiving information without authority.
5. Using unauthorized, specifically prepared materials during a test, e.g. notes, formula lists, notes written on the student's clothing or body.

ACADEMIC MISCONDUCT

Academic misconduct is the intentional violation of College policies by tampering with grades, or taking part in the obtaining or distributing of any part of any unadministered test.

Examples:
1. Stealing, buying or otherwise obtaining all or part of an unadministered test.
2. Selling or giving away all or part of an unadministered test, including answers to an unadministered test.
3. Bribing any other person to obtain an unadministered test or any information about that test.
4. Entering a building or office for the purpose of changing a grade in a grade book, on a test or on other work for which a grade is given.
5. Changing, altering, or being accessory to the changing and/or altering of a grade in a grade book, on a test, a "change of grade" form, or other official academic records of the College which relate to grades.
6. Entering a building or office for the purpose of obtaining an unadministered test.

FABRICATION

Fabrication is the intentional use of invented information or the falsification of research or other findings with the intent to deceive.

Examples:
1. Citation of information not taken from the source indicated.
2. Listing sources in a bibliography not used in the academic exercise.
3. Inventing data or source information for research or other academic exercise.
4. Submitting as your own any academic exercise (e.g. written work, printing, sculpture, etc.) prepared totally or in part by another.
5. Taking a test for someone else or permitting someone else to take a test for you.

PLAGIARISM

Plagiarism is the inclusion of someone else's words, ideas or data as one's own work. When a student submits work for credit that includes the words, ideas or data of others, the source of that information must be acknowledged through complete, accurate, and specific footnote references, and if verbatim statements are included, through quotation marks as well. By placing his/her name on work submitted for credit, the student certifies the originality of all work not otherwise identified by appropriate acknowledgements.

A student will avoid being charged with plagiarism if there is an acknowledgement of indebtedness:

1. Whenever one quotes another person's actual words;
2. Whenever one uses another person's idea, opinion or theory, even if it is completely paraphrased in one's own words, and;
3. Whenever one borrows facts, statistics, or other illustrative materials unless the information is common knowledge.

Smoking

In 1987, a special committee was formed to develop a College Smoking Policy. The Committee was made up of smokers and non-smokers, students, staff, faculty and administration. A smoking questionnaire was given to everyone at the College who would be affected by the policy, and the results clearly indicated that Cariboo College should adopt a No Smoking policy with the exception of smoking in designated areas only. Designated smoking areas will have adequate forced air ventilation to the outside, ashtrays, and will be posted as a smoking area. All entrance doorways, classrooms, washrooms, hallways, and general public areas will be designated as "No Smoking" areas. In other words, there shall be no smoking in any part of any College building unless that part of the building has been designated a smoking area. You are requested to adhere to this policy.

Sexual Harassment

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favours or other verbal or physical contact which is sexually oriented.

Cariboo College does not have an established sexual harassment policy or set of procedures; however, it does recognize the seriousness of the offense. Counsellors are available to anyone wanting help in this area. Incidents of sexual harassment may be reported to the Director of Student Services. Reports are received in complete confidence. Complaints are brought forward to the proper authority only upon a request from the complainant.

College Services

Library

The College Library is an essential part of student life and you will soon find that it is much more than a collection of books. There are plenty of books to back up course reading, but there is also a large collection of magazines, government documents, etc., which can be used for research. There is a film and video collection; many students find it handy to check out videos and use them at home. Also, there is study space for students where they may work at carrels with minimal noise distraction.

Students still come into the Library looking for the old card catalogue, but it is a long time since the older system has had any place at Cariboo. The books are listed in a computer catalogue and students can access it through computer terminals, with a microfiche list as back-up. The books are checked in and out by computer as well, and the computer is very accurate in remembering fines. It is a good idea to get your books back on time. A Library fine will cause final grades and transcripts to be withheld.

You get your Student Card from the Library. It has a picture identification on it and costs $2.00. Once you have registered, take your registration form to the Library and get your picture taken. This card will last you as long as you are at Cariboo, but you do have to renew it each semester. Each time you register, take the Receipt for Fees to the Library and your card will be up-dated free of charge. If you let your membership expire, you will not be permitted to borrow books.

The Library is open Monday to Thursday, 8:00 a.m. to 10:00 p.m.; Friday, 8:00 a.m. to 5:00 p.m.; and Saturday and Sunday, 12:00 p.m. to 5:00 p.m. May to August the hours change to Monday to Friday, 8:00 a.m. to 4:00 p.m.

Be sure to check the Library out soon — no pun intended. It is a friendly place and there is always someone to help you out with any questions.

Bookstore

The College Bookstore offers you much more than just books. Located in the Vocational Wing of the Main Building, the Bookstore also sells jogging suits, shirts, chocolate bars, calculators, stationery supplies and teddy bears.

Bookstore hours through the academic year are from 8:00 a.m. to 8:00 p.m., Monday to Thursday and from 8:00 a.m. to 3:00 p.m. on Friday. Summer hours are from 8:00 a.m. to 4:00 p.m. Monday to Thursday and 8:00 a.m. to 3:00 p.m. on Friday.

By August, the textbooks required for your course work will be available so that you may purchase them as you register. Almost all textbooks can be returned for a full refund up to four weeks after classes begin, providing you have the original receipt and the textbook is unmarked in any way.

USED TEXTS

The budget-minded student will be interested in the Bookstore's buy-back policy for used texts. In the months April through August, the Bookstore will purchase used textbooks from students for 50% of the original purchase price, providing the text is the current edition and is to be used in the following year.

If a particular text has been dropped from a course, the Bookstore will purchase it for a list price from a buyer's catalogue, providing, again, that it is the current edition. These used texts are then made available to students in the next year at prices substantially less than the price of the new textbooks. You therefore might also be interested in purchasing used texts as a way to save money.

Student Society

Every student who registers at the Kamloops campus of Cariboo College becomes a member of the Cariboo College Student Society through the payment of a fee. The Society was incorporated by the student body so that students might act collectively to further their common interests. The Society provides social, cultural, recreational, educational and support services for its members, as well as representing students' interests and concerns in the appropriate forums.

Society members may also be members of the Canadian Federation of Students (CFS).

The Student Society Office is in Portable 604.

Student Newspaper

The student newspaper, The 210 Express, is published bi-weekly on Wednesdays.

A portion of Canada's budding journalists and photographers work diligently on this paper — they do everything including layout, editing and writing. You are encouraged to pick up a copy from one of the several strategically located piles. Part of your student activity fee goes toward this publication.

Daycare

Cariboo College has a daycare service that is offered by the Cariboo Child Care Society.

The Daycare Centre can take as many as 45 children from three to kindergarten age. The service costs $270 per month and is open five days a week from 7:15 a.m. to 5:15 p.m. The Daycare Centre is located across from the Fine Arts Building.

To use the Daycare Centre, you must register with Yvonne Dickie, who can be contacted at the Daycare Centre. The telephone number is 374-7445 or write:

Cariboo Child Care Centre
650 Dalhousie Drive
Kamloops, B.C.

Parking

Parking at Cariboo College is free of charge. Lots at Cariboo College are located behind the Gymnasium, Science Building, beside the Library and in the southeast corner of the campus grounds. The earlier you arrive at the College, the better your chance is to acquire a parking space near a building. The parking in the extreme perimeters of the southeast lot requires approximately a five minute walk to get to the Main Building.

Your vehicle will be towed away if you are in Staff, Handicapped or No Parking areas. Vehicles parked in these areas must have the appropriate decal in the window indicating special parking privileges. Fire lanes are also tow away zones. If your vehicle has been towed, you can contact Mike's Towing (374-8874) and expect to pay $40-$55, depending on the nature of the tow. If it requires dollying, the higher rate will be applied. To pick up your vehicle, you are required to pay the bill at their office, which is near the Indian Reserve.

Campus Security

Security Guards can be located on the campus 24 hours a day. They will be happy to give you directions, open locked doors or direct you to a convenient place to park your car.

Their office is located in room 131 of the Main Building. If they can't be found in their office after regular school hours, you can reach them by phoning the number on their door. By dialing this number, you will be connected to a one-way voice transmitter. After the beep, state your business and a Security Guard will respond. The buildings are closed to the general student body after 11:00 p.m.

All security staff have been trained in industrial first aid and all possess certification. They are willing to help in any situation.

Security staff patrol the parking lots and emphasize that vehicles parked in designated handicapped and fire lane areas will be removed at the owner's expense ($40).

Buzzers

If the building is locked and you need to get inside, you can use the buzzers to inform Security you need assistance.

Please do not use the buzzers located at the entrances to the Main Building during the day. They are loud and they offend the staff working in the Main Office. Thanks.

Technical Services

The Technical Services Department is responsible for the maintenance and use of a wide variety of audiovisual equipment. The department lends out equipment such as 16mm and 35mm projectors, video and audio playback units and slide viewers to students and staff at the College.

Technical Services is located on the third floor in the Main Building. You, as a student, are entitled to borrow equipment, but only for use in class. Signatures are required from you and your instructor in most cases. The signing takes place at Technical Services.

Computer Services

All Cariboo College students are eligible for computer accounts; it is not necessary that you be enrolled in a Computing course. Students are encouraged to use the computer for essay preparation and other course work applications. Student accounts are removed from the system at the end of August. The College computer terminal lab facilities are available 24 hours a day, 7 days a week. You may also dial into the computer from outside the college if you have the right equipment.

Accounts are applied for and distributed from the Information Services Office which is on the third floor of the Main Building. To reach it, you may take the elevator located across the hall from Records and Admissions Office or the stairs located beside the elevator. The Director of this division is Derek Chambers.

Typewriters

There are three electric typewriters in the Library especially for student use. Reservations are preferred to eliminate crowding during busy times.

Photocopiers

You can find photocopiers on campus in two places — the Library and the Student Society Office. The cost is 10¢ per copy.

Room Booking

Students are able to book rooms in the college for a variety of reasons. You are required to complete a form, which is available from the Secretary of the Director of Student Services. The Main Receptionist will assist you in finding her or you can contact her at local 5009. Reservations are necessary.

Lost and Found

The Lost and Found box is located in the Receptionist area of the Main Building. You are free to rummage through the box until you have found your lost article. If the lost article is of a valuable nature, it will be under lock and key. Enquire with the Receptionist if you have lost anything.

Mail Boxes

Cariboo is equipped with a postal service that allows you to mail a letter. Stamps, envelopes, pens and even paper can be purchased at the Bookstore. The mailbox is located in the Receptionist's area of the Main Building and is emptied twice a day.

Parcels are also accepted, but you must get them properly posted elsewhere.

Lockers

Lockers are located in the halls and many of the entrances of the Main Building and Cafeteria. If you need the use of a locker for a semester, put your lock on it and then register it with the Student Society. All lockers must be re-registered during September, January and May for a further four-month period. Lockers go quickly, so you may have to share. Students vacating their lockers in mid-term are asked to notify the Society that their lockers are available. If you forget your combination or lose your key, the Student Society will verify the locker is yours and Security will remove your lock.

How to Get Change

Change can be obtained in several different ways on campus. The Bookstore will give out change, but only if the bill-changing machines are out of service. The Cafeteria and the bill-changing machines are the best bet for fast, on-the-spot change. The bill changers are located near the vending machines in the Student Lounge in the vocational wing and on the second floor of the Main Building.

Cafeteria

The Cafeteria is open Monday to Thursday from 7:00 a.m. to 7:00 p.m. and on Friday from 7:00 a.m. to 2:30 p.m.

Breakfast and lunch can be purchased at below-average prices. Breakfast begins at 9:00 a.m. Notices will be posted if breakfast is not available. Lunch is served as the main meal. In the evening, soup and sandwiches can be purchased.

In addition to Cafeteria service, the Cafeteria has a dining room in which people can make reservations for dinner. The prices are competitive with other restaurants of the same calibre. Prices range from $9.50 to $18.00 for a course entree. There are about 17 items to choose from on the menu. To make a reservation, phone 372-0622, after 3:00 p.m., Monday through Thursday.

Sports and Athletic Activities

Cariboo College offers a wide variety of sporting activities to those of you wishing to participate.

For the serious athlete, there are varsity teams that represent Cariboo College and play in the B.C. College's Athletic Association. Being involved with one of these teams gives you a chance to represent Cariboo by playing other colleges. The pace for the varsity team is strenuous and competitive. Sports included are: soccer, basketball, volleyball, curling, badminton, golf and ice hockey. You must be enrolled in at least nine credit hours per semester to be eligible to play. To try out for a team, you only need to contact any of the staff in the Gymnasium.

Everybody is not able or interested in being on a varsity team. Some students simply wish to have fun without the stress of intense competition. For these students, intramural (campus recreation) activities are the answer. On the average, you are able to participate once a week in a scheduled activity. Activities included are: floor hockey, indoor soccer, volleyball, aerobics or whatever type of activities are desired by students.

If you do not wish to participate in team sports, you can simply drop into the gym and shoot a few baskets, play a game of racquetball, squash or do some weight training.

You are able to purchase sweatpants, racquet balls, squash balls and racquets at the Gymnasium. To play these sports, you can rent the racquets and balls. The cost for a court is $1.00/person and rental of the equipment is extra. Just display your student card for service.

Leisure activities in the Gymnasium basement include the following: pool, ping pong and foosball. You can sign out cues and balls for the pool table — the cost being $2.00/hour for pool and 50¢ for foosball. Ping pong is available as are hockey rings, softballs and soccer balls for sign out at no charge. You can also sign out the key for the cage, where the Olympic weights are kept.

Lockers are available for $5.00/semester plus a $5.00 deposit. Included in the price is a lock, locker and a continuous supply of clean towels.

Athletic Home Games Schedule 1987/88

CNC — College of New Caledonia
SAIT — Southern Alberta Institute of Technology
TWU — Trinity Western University
UBC — University of British Columbia
VCC — Vancouver Community College

Transportation

Bus Service

For a Cariboo College student, the Kamloops bus system is an effective mode of transportation — a single fare is 75¢ (exact change is required).

The Gleneagles 9 and the Dufferin 11 buses stop regularly at the College during the day and evening. The Gleneagles arrives and leaves every half hour at eight minutes after the hour and half hour. The Dufferin arrives and leaves every hour at seven minutes after the hour until 3:30 p.m. After 3:30 p.m., the time jumps ahead ten minutes for both buses. You are safe to assume the Gleneagles bus will be there at times until 9:53 p.m. — the last bus of the day.

For those students who live on the North Shore or other outlying areas of Kamloops, a transfer from the downtown terminal is necessary. A transfer is free. The College maintains a supply of bus schedules in the pamphlet racks outside the Counselling Office.

The Kamloops Transit System's phone number is 376-1216.

Car Pooling

Car pooling is also an effective form of commuting. It simply requires you to find someone who you can ride with and depend on. The Student Society, located in the portables, can help you find a ride. Other areas to search are poster and notice boards. By looking around, you can also acquire rides to centres outside of Kamloops.

Entertainment

Cariboo College Film Society 1987/88 Season

Oct. 2	**Children of a Lesser God** U.S.A., 1986
Oct. 23	**A Room With A View** U.K., 1985
Nov. 13	**Tosca's Kiss** Switzerland, 1984
Dec. 4	**Koyaanisqatsi** U.S.A., 1983
Jan. 15	**Salvador** U.S.A., 1986
Jan. 29	**I Vitelloni** Italy, 1953
Feb. 13	**My Beautiful Laundrette** U.K., 1985
Mar. 4	**Round Midnight** France, 1986
Mar. 18	**Escalier C (Staircase C)** France, 1985
Apr. 8	**The Name of the Rose**

All showings will be held in the South Central Health Unit Auditorium, starting at 8:00 p.m.

Membership Fees: $20 adult; $35 couple; $12 student/senior

Tickets may be purchased at the College Bookstore in September, or at the first showings, subject to availability.

Cultural Events Series

Watch for hour-long performances by musicians, dancers, actors and writers, once every two or three weeks from 12:30-1:30, almost always on a Thursday. There is no admission charge, and everyone is welcome. The first event in the 1987/88 Series will be a performance by folksinger and songwriter James Keelaghan, in the Gymnasium at 12:30 on Thursday, September 24.

Off-Campus Entertainment

Off-campus entertainment is quite varied in Kamloops. The world of city life is yours for the taking — granted you possess spare money.

If movies are your form of entertainment, Kamloops has the Odeon (a four-plex) and the Paramount on the Southshore and the North Hills on the Northshore. Tuesdays are the days to go for the economy-minded student — the cost in Kamloops is $2.50-$3.00. If you go on a Tuesday, be prepared for a full house and a long line up.

Night clubs are another form of entertainment. The "hotspots" include: The Diamond Club, Go Banannaz, Jack Daniels, D.T. Pub, Shakers, and the Dome. Entertainment in these places varies from canned music to live bands. For more information, please contact the establishment.

Other forms of entertainment include the Kamloops Symphony. To obtain information, a brochure is available from the Symphony office at 1-465 Victoria Street. The brochure will tell you who, when and where symphonies will be played. There are newspaper and television advertisements two weeks before each production.

Other entertainment includes the Western Canada Theatre Co. and the Kamloops Players. To obtain information about the productions, you should contact the Kamloops Ticket Centre (KTC) at 374-3544.

The Western Canada Theatre Co. and other local groups rent the Sagebrush Theatre. Contact the Sagebrush or the KTC.

Telephone Numbers

Telephone Numbers

Direct Inward Dial (DID) will be coming to the College starting in November. At present, there are only a few Departments with their own outside number. That will change. After November, when calling the College, it will be possible to be connected directly to the called party without Switchboard intervention. Some of the new DID numbers will be as follows: (828 + College Local)

Admissions	828-5037
Allan Matthews Centre	828-5290
Awards	828-5024
Bookstore	828-5141
Cariboo Child Care	828-5161
College Nurse	828-5126
College Receptionist	828-5000
Counselling	828-5023
Dining Room	828-5354
Extension Services	828-5039
Foreign Student Co-ordinator	828-5162
Gymnasium	828-5270
Native Drop-In Centre	828-5359
Records	828-5036
Student Services	828-5009
Student Society	828-5358
