## <sup>a</sup>INTRODUCTION

The Shuswap Counting system is rich and colourful. Each object that is counted has a separate category that identifies the objects shape, and size.

Learn to count to ten, from there on it becomes repetetive and the numbers will become recognizable within counting systems.

Numbers up to 50 have been completed. Numbers 60 -100 are provided. Upon learning the numbers to 50, continue counting as you have done to 100.

The writing for the numbers were taken from the Kuipers Dictionary and Word-List.
