Dear Nelson:

KSPC is hosting a unique group of teenagers from Montreal this month.

These serious students, who are members of Students Against Global Extermination (SAGE), have taken a year off their studies to tour across Canada to talk to teens about nuclear war, the arms race, their fears and concerns, and lastly, to help the students realize that they can take a positive role in shaping the future for a non-nuclear world. They leave the students with hope and confidence for their future.

SAGE has been widely received and highly praised wherever they appear.

SAGE will be at the South Central Health Unit on Thursday, April 16th at 7:30 p.m.. We cordially invite you to attend.

Yours for peace
