

Canada as a peacemaker

DO YOU FEEL THAT CANADA COULD BE PLAYING A
MORE VITAL ROLE IN THE INTERESTS OF WORLD PEACE?

ISN'T IT TIME CANADA PURSUED AN INDEPENDENT
FOREIGN POLICY BASED ON PEACEFUL CO-OPERATION
WITH ALL NATIONS OF THE WORLD?

ISN'T IT TIME WE PUT MORE OF OUR RESOURCES
INTO ORGANIZATIONS SUCH AS THE U.N., DEVOTED TO
THE CAUSE OF WORLD PEACE AND LESS INTO THOSE
SUCH AS NATO AND NORAD, FORMED FOR THE PURPOSE
OF ATTAINING MILITARY STRENGTH?

A NON-ALIGNED CANADA WOULD BE SEEN INTER-
NATIONALLY AS A LEADER IN THE MOVEMENT TOWARDS
WORLD PEACE, DETENTE AND DISARMAMENT.

WE MUST UNITE TO CHANGE THESE IDEAS INTO POSITIVE ACTION

- 1) Write to the defence Minister and your local M.P.
- 2) Raise these crucial issues in your own organizations, (church, trade unions, etc.).
- 3) Join a peace group or form your own.
- 4) Above all get involved, let your voice be heard!

For information write:

Ph. 531-4178

If you agree and wish to become actively
involved in our activities to promote
disarmament, please join us.

PEACE

THE NEUTRON BOMB

Homes without people
Hospitals without patients
Factories without workers
Silouetted against the sky
Are grim testimony
To man's ultimate folly

The stench of decaying bodies
Is everywhere
There is no one
To bury the corpses
Of man or beast;
No birds of prey
No hungry animals
Have survived.

Only the buildings remain
And they too will crumble

The world
(Or what remains of it)
Will know that
The Neutron Bomb
Was a success.

(Janet N. Neuman

we CAN'T let it happen!

stop trident!

WHAT IS THE TRIDENT?

The Trident submarine is an offensive, "First Strike" nuclear weapons system based at Bangor, Washington. It is capable of destroying 408 major cities in a single attack.

WHAT DOES THIS MEAN TO CANADIANS?

Some eight miles south of the Canada-U.S.A. border, this base represents great danger to Canadians in the Lower Mainland, Gulf Islands region. In the event of nuclear war, or a serious accident of some sort we would surely be either killed or seriously contaminated by radioactive fallout.

While this offensive base is in existence at Bangor, it is a prime strategic target in the event of war. In light of the fact that the stockpiling of nuclear armaments globally, has reached overkill proportions, the Trident is an unnecessary and unwanted development. As long as this "First Strike" base is allowed to exist, it remains a very serious threat to world peace.

ban ALL WEAPONS of mass DESTRUCTION!!
