

## ALL TOYS TEACH

"After all, children do not play in a mental vacuum; they use and test all their ideas as they play. We daresay that play is the child's most dynamic way of learning."

Caplan, Frank and Theresa. The Power of Play. New York: Anchor Press, 1973.

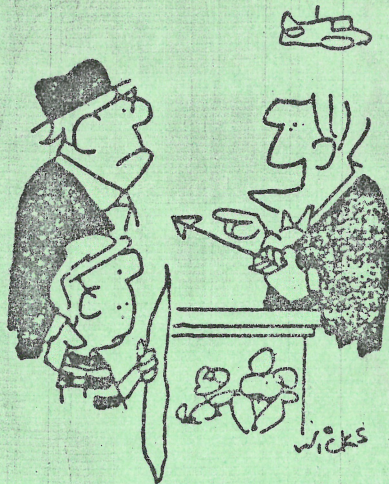

"Play is children's work. It is a natural and important activity for them. Play is how they learn about the world."

Isenberg, Joan P. and Judith E. Jacobs. Playthings as Learning Tools. New York: John Wiley, 1982.

"How about our new 'nuclear warhead' model?"

Alan Hassenfeld, Executive Vice-President of Hasbro, the makers of G.I. Joe, said that Hasbro does not licence or manufacture toy guns, even though the company could make "at least \$500,000" a year by doing so. "We don't believe in guns for kids", he said. "That one scares me."
