To Whom It May Concern,

Our Secondary 3 students asked that someone come to speak to them concerning the problem of nuclear war. A few had heard of S.A.G.E. and recommended them. The necessary arrangements were made and I am happy to say that we are all very pleased with the sessions given.

S.A.G.E. representatives showed us the award-winning film, "If You Love This Planet" and then followed up with a frank, honest discussion of the enormity of the problem. Most importantly they spoke of the reasonableness of hope and the effectiveness of informed, concerted action. As a result a S.A.G.E. chapter is being formed in the school and students are eager to sign up for further information and meetings. One admitted, "When I first heard about this I thought, Boring. I already know what there is to know! I was wrong! I learned a lot, and I learned more willingly because young people were talking to young people." The speakers were factual, calm, clear and positive.

We would welcome a return visit for other levels. The program is well worth having.

Sincerely yours,

(Sister) Joanne Dion, S.S.A.
