	Storm drain		Single conifer >2m
	Man-made object		Single deciduous >2m
	Cliff		UNCROSSABLE garden
	Rock face		Hedge
	Rocky ground		Rough open
	Boulder, group		Open

SAGE ORIENTEERING
CLUB OF KAMLOOPS

Funding from Cariboo College for production of this map is gratefully acknowledged.

ORIENTEERING is a recreational activity that involves cross-country navigation using a map and compass. This map was produced in conjunction with the 1990 Asia Pacific Orienteering Championships, and is one of many maps produced in the province by the Orienteering Association of B.C. to stage regular events. Participants are invited to orienteer their way from one control point to another, around a pre-set course, either walking or running. At each competition a variety of courses, differing in length and difficulty, is offered. For more information on local clubs and permanent courses, contact the City of Kamloops Parks and Recreation Department, 611A Lansdowne St., Kamloops, B.C., V2C 1Y6; Tel: 828-3580.
