CARIBOO

KAMLOOPS, BRITISH COLUMBIA

THE UNIVERSITY COLLEGE ADVANTAGE

WELCOME TO UCC

The University College of the Cariboo (UCC) in Kamloops, is one of four institutions in B.C. where post-secondary education has expanded to offer full university degrees outside of Vancouver and Victoria.

Founded in 1970 as Cariboo College, UCC today is a growing four-year undergraduate school offering a broad spectrum of education and training.

Whatever your future career goals, we invite you to find out more about the advantages offered to students at The University College of the Cariboo.

COMPREHENSIVE

As a comprehensive institution, our many different programs meet the unique needs of people and communities in the Interior.

Being comprehensive means offering a range of programs:

- University degrees (4 - 5 year programs)
- Career/Technology Diplomas (2 - 3 year programs)
- Applied Industrial Technologies (1 - 2 year programs)
- Vocational Certificates (1 year programs)
- College Preparation
- Adult Basic Education
- Adult Special Education
- Extension Services for continuing education

NEW OPPORTUNITIES

As UCC evolves towards independent university status, we are becoming a truly unique place where students can experience learning in an environment unmatched by any other institution.

New initiatives in all program areas will come through the leadership and participation of students, faculty and the communities we serve.

Bringing together the traditional community "College" with the degree component of "University" has created the opportunity for students and faculty from many different backgrounds to come together and share new ideas.

Education at UCC is teaching-focused, with strong support for scholarly activity by faculty to enhance the learning experience for students.

THE UCC ADVANTAGE

Choosing the University College of the Cariboo offers students many unique advantages:

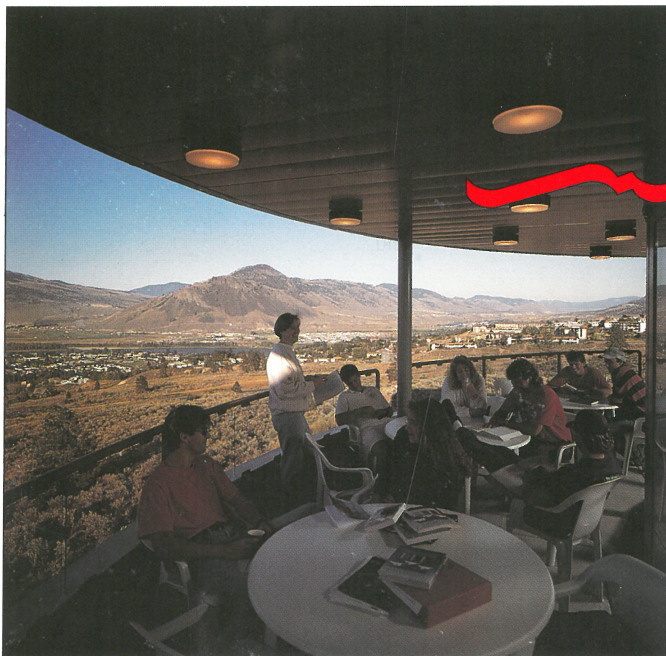

- smaller classes
- easier access to faculty
- computerized environment
- new facilities
- modern campus
- athletic and recreation facilities
- teaching-focused
- small city location
- on-campus housing
- lower tuition than universities
- scholarships and bursaries

KAMLOOPS AND THE CARIBOO

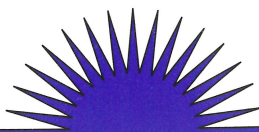

The main University College campus is in Kamloops, a city of 68,000 at the centre of the southern Interior of B.C.

Superb summers, four dramatic seasons, sports and outdoor recreation, and a diversity of cultural activity that few small cities can match are among the attractions of Kamloops.

UCC territory includes Merritt and the Nicola Valley, Clearwater and the North Thompson, Lillooet and the upper Fraser Canyon, and the historic region known as the Cariboo, where the name originates. At the Williams Lake campus, in the heart of the Cariboo, students can begin study in degree programs, or choose various Career and Trades program options.

With a population of nearly 6,000 students, UCC has doubled in size since becoming a four-year University College in 1989. Our long-term plan envisions a campus that will be home to 10,000 - 11,000 students by the end of this decade.

ON CAMPUS

The most striking feature for the first time visitor is the true campus environment of UCC, overlooking the city, in a landscaped setting usually found at older, traditional universities.

Beyond the classroom, we believe that quality facilities and activities for students are an essential part of the experience of post-secondary education.

Our new Campus Activity Centre provides a social, cultural and recreational gathering place at the heart of the campus. The gymnasium, Hillside Stadium track & field complex, and the Canada Games indoor 50-metre pool offer recreational and varsity athletic programs and facilities that are not available at any other college or university in the Interior.

Films, music, theatre, cultural events, lecture series, student clubs, intramural sports and many other student activities are now a regular part of the exciting new University College experience.

ADMISSION

Complete details on admissions policy and prerequisites are found in the UCC Calendar.

The basic educational requirement for Academic/Degree programs and the majority of Career/Technology programs is completion of B.C. Grade 12 (or equivalent) with a minimum average in English 12.

Beyond this, each program area has specific course prerequisites or recommendations. Requirements for Vocational programs vary from Grade 10 - 12 minimum, but graduation from high school is recommended in all cases.

First Year Academic, and a number of Career and Vocational program admissions are determined on a "first applied, first admitted" basis for qualified applicants, based on the date by which all application requirements have been met.

Upper Level Degree entry, plus many Career program admissions are based on an established selective process, using GPA standing and/or other criteria.

Admissions Interviews and/or pre-testing is frequently a part of the admissions process.

Mature Student Status for admission is considered for anyone 20 years of age or older, and out of school at least three years. Grade level requirements will be waived for mature students, but individual course prerequisites must be met. College Preparation courses allow students to upgrade and meet prerequisites for entry to UCC programs.

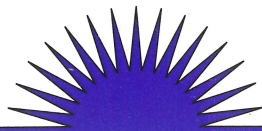

International Students from around the world are eligible to attend UCC, providing they meet academic requirements and possess a valid student permit.

STUDENT HOUSING

Students can live on campus in one of the 300 single units in the McGill Student Housing complex. Adjacent to the campus, new developments offer shared-accommodation or apartments.

The McGill Student Housing facility is privately owned and operated. Interested students should make direct contact as soon as possible each year by calling McGill Student Housing at (604) 372-7778.

STUDENT SERVICES

Whether you are still deciding on your future, seeking a change of career, planning the courses you want, or need help or information about any aspect of student life at UCC, the Student Services division is here for you.

Advising/ Counselling

(Room A122)
828-5023

At the Advising/Counselling Centre you will find these services:

Academic Advising

- Program planning
- Course-Program advice
- International student advisor

Counselling Services

- Career planning
- Personal/ Crisis counselling
- Retention counselling

Native Student Advisor

- Course & Program details for First Nations students
- Liaison & communication with Bands and Agencies
- Assistance & support to enhance student success

Special Needs Coordinator

- Assist access for students with disabilities
- Resources & support for students and faculty

Workshops and Seminars

- Career Planning
- Study Skills
- Time Management
- Stress Management

ADDITIONAL SERVICES

Awards/Financial Aid

(Room A122)
828-5024

- Scholarships
- Bursaries
- Student Loans
- Application Workshops
- Work Study Program

Office of the Registrar

(Room A109)

- Admissions 828-5071
- Records 828-5036
- Extension Registrations 828-5039

Athletics and Recreation

(Gymnasium)
828-5270

- Varsity Athletics
- Intramural Sports
- Recreational Sports

Assessment Centre

(Room A221)

828-5470

- LPI tests & Pre-testing
- Other testing services

Health Clinic

828-5126

- RN & MD services
- First Aid, Minor & Emergency treatment
- Confidential advising

International Student Centre

- Campus Activity Centre

Student Society Offices

- Campus Activity Centre

STUDENT SUCCESS

Your success as a student at UCC is our priority. Two courses designed by UCC faculty are offered to assist in achieving greater success, in the classroom and beyond. "Student Success 101" and "Student Success 102" are available to any student.

ACADEMIC YEAR

Most programs are semesterized and follow these time patterns:

Fall Semester: Sept. - December
Winter Semester: January - April

Some vocational programs offer starting dates on the first Monday of each month, or on

predetermined dates three or four different times during the year. Check with the admissions office. Your program of choice may be available sooner than you expected.

SUMMER SESSION

A growing number of university credit courses are now offered in six-week or 12-week Summer Session programs. Details are available in the spring, with registrations following the Winter Semester exam period.

Summer Semester I: May - June
Summer Semester II: June - July

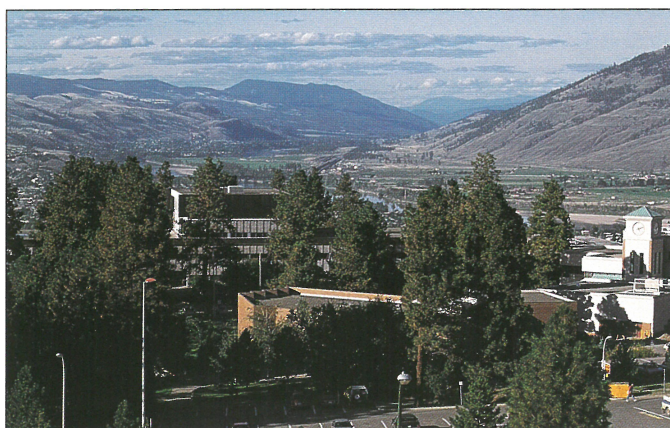

AVERAGE COSTS

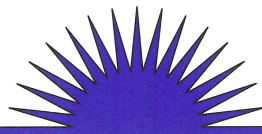

Tuition Fees - 1992 Figures

- Degree & Career Programs
\$31 - \$47 per credit hour
\$460 - \$705 per semester
- Trades & Vocational Programs
\$50 per month/Parttime
\$100 per month/Fulltime
- International Students
\$205 - \$250 per credit hour
\$3,075 - \$3,750 per semester

Other Fees and Costs

- Student Society, Activity Fee, Building Levy, Lab Fees, Books and Supplies
Total: \$500 average/semester

OUR MISSION

We are committed to excellence through exemplary teaching, scholarship, research, uniqueness of programs and quality of support services.

Our close ties with the communities we serve, and businesses and industry across the province, along with our facilities, equipment and experienced faculty, are all part of ensuring this vision of excellence.

The need for continued awareness of the practical applications of programs is supported by Program Advisory Committees for many of our programs.

Made up of employers, industry experts, and others from the community, they serve to ensure that our programs are relevant to current industry practices and are responding to new developments in technology.

DEDICATED FACULTY

Our faculty are approachable, knowledgeable, professional, and highly qualified.

Scholarly activity of all kinds, often involving students as part of their education, keeps faculty and programs current on new developments in their field.

Excellence in teaching is emphasized at UCC and faculty have been recognized across North America with awards for teaching excellence.

New academic journals, lecture series, student journals, published articles, national and international exchanges of students and faculty, and many other new and exciting events are all part of the university college experience today.

VISIT OUR CAMPUS

Choosing post-secondary study is one of the most important decisions you will ever make.

A visit to our campus is one way to see if UCC is the right choice. Individual appointments with counsellors or advisors are available to discuss your career or course plans.

Group tours are available by contacting the Public Relations Department.

AWARDS

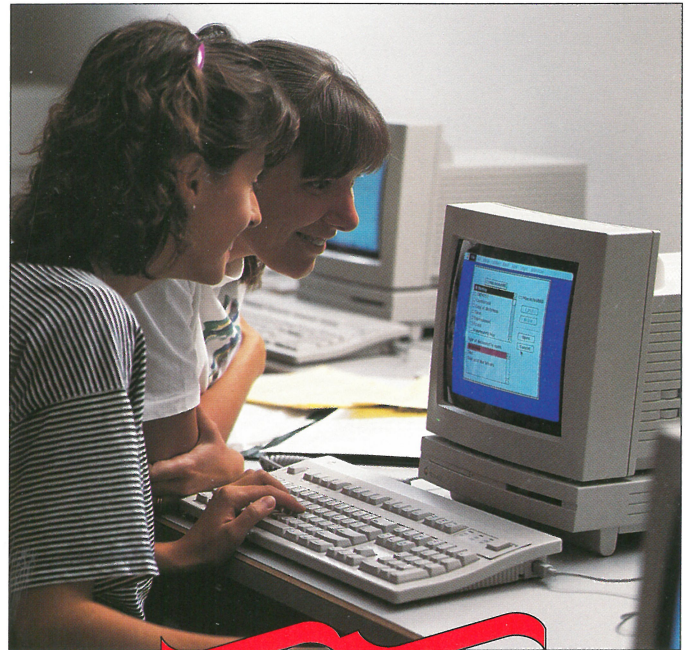

Through the Awards Office students should apply for the growing number of scholarships, bursaries and awards being established through our UCC Foundation.

CO-OPERATIVE EDUCATION

UCC offers Co-op Education in some Career programs, and looks to expanding this format of education to other program areas, including degrees. For more details contact the Co-op Education Centre at 828-5276.

ATHLETICS AND SCHOLARSHIPS

Scholarships for varsity athletics are available to incoming high school graduates and returning students, thanks to the fundraising efforts of the Sports Task Force. This group of community volunteers raises over \$20,000 annually to support students and athletics at UCC.

Sun Demons varsity and club level sports include:

- Basketball (Men & Women)
- Volleyball (Men & Women)
- Soccer (Men & Women)
- Indoor Soccer (Men & Women)
- Golf (Co-ed)
- Curling (Co-ed)
- Badminton (Co-ed)
- Cross-Country Running (Co-ed)

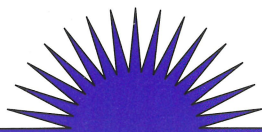

Intramural and Recreational Sports include: Basketball, Ice Hockey, Floor Hockey, Indoor Soccer, Flag Football, Volleyball and Slo-Pitch.

Future varsity or intramural athletic programs could include:

Swimming, Diving, Track & Field, Rugby and other water or field sports, as the result of the new Hillside Stadium and Indoor Aquatic Centre facilities built on campus for the 1993 Canada Games in Kamloops.

The University College is a teaching-focused, four-year undergraduate institution dedicated to offering the full range of one, two, three and four year programs to meet the needs of people and communities in the Interior.

NEARLY 100 PROGRAMS TO CHOOSE FROM

From special education programs to full university degrees, many of the careers of tomorrow begin at the University College of the Cariboo.

DEGREE PROGRAMS

Bachelor of Arts

(with UBC) Majors in:
English, Psychology

Associate of Arts

Bachelor of Science

(with UBC) Majors in:
Animal Biology,
General Biology, Chemistry,
Chemistry-Environmental
Option, Mathematics,
Mathematical Sciences,
Physics

Associate of Science

Bachelor of Natural Resource Science

(begins September '92)

Bachelor of Elementary Education (with UBC)

**Bachelor of Business
Administration** (with SFU)
Concentrations in:
General Business, Marketing,
Human Resource Mgmt

Bachelor of Social Work (with UVic)

**Bachelor of Science in
Nursing** (with UVic)
For Registered Nurses

TRANSFER PROGRAMS

Commerce (UBC)

First two years at UCC

Engineering (UBC, SFU, UVic)

One or two years at UCC

Forestry (UBC)

One or two years at UCC

Pre-Law

Three or four years at UCC

Pre-Dentistry (UBC)

Three years at UCC

Medical Laboratory

Sciences (UBC)

Three years at UCC

Pre-Medicine (UBC)

Three years at UCC

Pre-Pharmacy (UBC)

One year at UCC

Pre-Rehabilitation Medicine

One year at UCC

Pre-Veterinary Medicine

Three years at UCC

CAREER PROGRAMS
