

10 April 1980

NEWS RELEASE

(for immediate release)

Cariboo College's annual exhibition of student work in Fine Art will be open to the public in the College Board Room from 10:00 a.m. to 5:00 p.m. April 14-19, 1980.

The display is based on the work of the second-year students in the College's Diploma Program in Fine Art, supplemented by the selected work of first year students in the program.

Work shown will include painting, drawing, sculpture, ceramics and graphics. "We always welcome the opportunity to show off our students' work," said Fine Art Instructor Bill Walton, "We are proud of the development shown by the students, and think that the public should have a chance to see what they have accomplished." Following the display at the College, Walton noted, a smaller, selective exhibition of work by Cariboo College students will be on show in the Kamloops Public Art Gallery from April 21-26, 1980.
