NEWS RELEASE

FOR IMMEDIATE RELEASE

**CARIBOO COLLEGE PLAYING FIELDS PROJECT**

Frank Stevens, Vocational Programs Coordinator at Cariboo College today praised the many people who have been involved during the past two years in planning the building of a community competition class track and field complex.

Stevens said, "The machanical, welding, carpentry and drafting departments at Cariboo College have all assisted in planning for initial site preparation earthwork which will be done by Cariboo College students through a unique program under the auspices of the Operating Engineers, Local 115, Joint Apprenticeship and Training Plan. Texaco Canada has also generously agreed to supply all fuels at minimum cost".

The program, which will run until June 6, got underway today with representatives of the City of Kamloops, Cariboo College, the Operating Engineers, Local 115 and Stanley & Associates present to see the heavy duty equipment in action.
