Re: Community Arts Council - Arts Bulletin

Date: 84-02-07

I have taken a group membership in the Arts Council on behalf of the college. This relates in particular to the KAMLOOPS ARTS BULLETIN which will be produced monthly as an advertisement for a wide variety of arts and culture groups in the city. The February issue, for example, includes information on theatre groups, the symphony, art galleries, weavers, choirs, and so on; and it publicizes the offerings of our Cultural Events Committee, the noon hour film series organized by Ginny Ratsoy, and the lecture series at noon which is coordinated by Will Garrett-Petts. All activities discussed in individual articles also appear in the Calendar of Events which the ARTS BULLETIN provides.

After a trial period of two months, the ARTS BULLETIN will publish information from only those organizations who are members of the Arts Council. The group membership I've taken should cover all of us, so make sure you take advantage of this free source of publicity. The ARTS BULLETIN will enter only about two hundred homes, but the people who live in those homes are our best audience.

Which leads me to the pitch. Make your home one of them. The ARTS BULLETIN will survive only if enough people join the Arts Council and pay its way. The BULLETIN alone is worth the small annual fee. An added benefit for Arts Council members is that they support, in at least a small way, the annual Arts Fair in Riverside Park, the Kamloops Showcase of talent, and the continued distribution of Cultural Services Branch grants to local arts groups. If the Arts Council isn't supported, these things will be lost.
