Twenty-six students as well as two professors from Cologne have been touring the Rockies on a geography trip and are making an appearance at UCC as part of their Western Canada tour.

The group will attend the morning presentation on the cultural and educational benefits of participating in an international student exchange. The meeting will be hosted in the Old Main building seminar room (OM1611) by UCC's Geography Department, the Faculty of Arts and International Education.

Professor Dieter Soye, chair of the Geography Department at Cologne, and Dr. Christian Schwartz, co-ordinator of the Cologne University/UCC Student Exchange program will make an informal presentation on the University of Cologne and the exchange. The presentation goes from 9 – 10 AM.

This is the second year UCC has been involved with the Cologne exchange program. Two UCC students recently returned from a year there and three more left last week. Last semester, UCC hosted two students from Cologne and two more have enrolled for this session.
